EASTER ASSESSMENT

REVISION PAPER

English

First name: _____

Last name: _____

This paper contains 60 marks

- a.** This paper consists of a **50-minute test**.
- b.** Read the instructions carefully.
- c.** Do not begin the test or open the booklet until told to do so.
- d.** Work as quickly and as carefully as you can.

ENGLISH PRACTICE

Read this passage carefully and then answer the questions that follow.

Arachne and Athena

The myth of Arachne and Athena is a cautionary tale: it warns humans not to try and compete with the gods because only their destruction will come of it.

5 Arachne was a young Lydian woman, daughter of a famous textile dyer called Idmon. When she was a tiny girl, she learned to weave and immediately her talent showed, even as a novice. Arachne could move her hands as fast as a magician. As she grew, she kept practicing and working on her craft for years.

9 Her fame spread across the land, and many came to watch her weave. Arachne was
10 such a talented and dedicated weaver that she invented linen. She could weave so beautifully that the images on her fabrics were so perfect people thought they were real.

15 All the attention, fame, and adoration for her weaving made Arachne's pride soar to the point that she became conceited. When spectators called her talent divine and a gift of the gods, especially of Athena who was the goddess of weaving, she scoffed at the notion.

20 "My talent does not come from the gods, nor Athena."

The crowd gasped in horror because insolence in the face of the gods often incurred their wrath. One of her fans urged her to take it back.

25 "Ask Athena to forgive your audacity," the fan said, "and she might spare you." But Arachne would have none of that.

"Why would I ask for her forgiveness?" she challenged. "I am a better weaver than even her. How could my talent have been her gift if I am better?"

30 At that, there was a bright light, and Athena appeared before her and the spectators. "Will you say these things to my face, girl?" she asked Arachne. Arachne nodded. "I will, goddess. And I will prove my words too, with my deeds, if you wish! We can have a weaving competition!"

35 Athena accepted the challenge. The goddess and the mortal sat down to weave. People gathered more and more to watch the wondrous spectacle. The weaving went on for days, until finally both Arachne and Athena had produced a tapestry with scenes of the gods on it.

40 Athena's tapestry was the most perfect thing mortal eyes had ever seen. As a
goddess, the thread she used came from the fabric of the earth itself. She had depicted
the gods at Mount Olympus in all their splendor. Each one of them were shown in glory
doing heroic deeds. They were so lifelike that even the clouds and the sky looked
45 three-dimensional and with perfect colour. Nobody believed that Arachne could top
something so immaculate.

But Arachne remained confident, and she unfurled her own tapestry, letting it fall over
Athena's in a flurry.

50 The people gasped again because they couldn't believe their eyes. The tapestry was
divine. Athena was surprised to see that even though she had used mortal threads,
her scenes were vivid and lifelike and powerful. Arachne, too, had depicted the gods
in four different scenes separated by exquisite designs.

55 But there was one big difference.

Arachne's gods had no glory, no virtue, no kindness. The scenes Arachne chose to
depict were scenes where the gods were at their pettiest, their drunkest, their most
abusive towards. To add insult to injury, the tapestry was flawless, even to Athena's
60 godlike eyes. The detail and complexity of the scenes she depicted were far superior
to Athena's too, and so Arachne's tapestry was the better one of the two.

**Please answer the questions. You may refer to the passage again if you need
to. Choose the best answer and mark its letter.**

1. What was Arachne's father called?

- A. Apollo
- B. Zeus
- C. Athena
- D. Idmon
- E. Poseidon

**2. 'Arachne could move her hands as fast as a magician' (line 6) is an
example of:**

- A. Metaphor
- B. Alliteration
- C. Simile
- D. Onomatopoeia
- E. Pun

3. How did Arachne become so gifted at weaving?

- A. Her father taught her.
- B. Her mother taught her.
- C. It was a gift from the gods.
- D. She practised for many years.
- E. Athena was her teacher.

4. The word 'immediately' and 'beautifully' in the text are examples of:

- A. Adjectives
- B. Adverbs
- C. Nouns
- D. Verbs
- E. Pronouns

5. Why did people adore the pictures of people that Arachne weaved?

- A. They were of famous people
- B. They were weaved from gold
- C. The people were so realistic
- D. They moved magically
- E. They were simple but beautiful

6. What happened to Arachne when she started becoming noticed for her talent?

- A. She became horribly boastful.
- B. She showed humility.
- C. She thanked Athena for her support.
- D. Her craftwork was sold for lots of gold.
- E. Her father was incredibly proud.

7. Why were some of Arachne's fans worried about her behaviour?

- A. She was making silly mistakes in her weaving.
- B. Her arrogance was disrespectful to the gods.
- C. She was exhausted due to all the attention.
- D. She did not believe how talented she was.
- E. She did not want to weave any more.

8. Another word for 'wrath' is:

- A. Peace
- B. Piece
- C. Anger
- D. Love
- E. Envy

9. According to the story, what material did Arachne invent?

- A. Cotton
- B. Linen
- C. Silk
- D. Leather
- E. Wool

10. What is a difference between gods and mortals?

- A. People only worship mortals.
- B. Mortals have eternal life.
- C. Gods are kind and generous.
- D. Gods have eternal life.
- E. Only mortals can weave cloth.

11. How long did the competition last for?

- A. A few months
- B. A few hours
- C. Several minutes
- D. A few days
- E. All evening

12. What words in the passage out of the following are pronouns?

- A. She & her
- B. Arachne & Athena
- C. Weaved & made
- D. But & or
- E. Cloth & tapestry

13. What is the opposite word to 'heroic'?

- A. Cowardly
- B. Brave
- C. Spiteful
- D. Generous
- E. Warrior

14. What image did Athena weave?

- A. Mortals dining together
- B. A cruel depiction of Arachne
- C. The gods at Mount Olympus
- D. The gods at a banquet
- E. The passage does not say

15. What is another word for 'unfurl' as used in the passage?

- A. Hide
- B. Tear
- C. Conceal
- D. Open up
- E. Break

16. How many verbs are there in line 9?

- A. 0
- B. 5
- C. 4
- D. 1
- E. 3

17. What was the biggest difference between Arachne's tapestry and Athena's?

- A. Arachne's had duller colours.
- B. Arachne's cloth was from the earth.
- C. Arachne's portrayed the gods in a bad light.
- D. Arachne's was less beautiful.
- E. Arachne's tapestry was much bigger.

18. What does the word flawless mean?

- A. Problematic
- B. Wise
- C. Colourful
- D. Vivid
- E. Perfect

19. At the beginning of the text, it tells us this is a 'cautionary tale' about humans trying to compete with the gods.

What can we assume happened to Arachne at the end of the story?

- A. She won the competition and was invited to weave with Athena.
- B. She received an award.
- C. Like Athena, she was promoted to goddess.
- D. She was punished severely.
- E. She was allowed to carry on boasting of her talent.

Proofreading - Spelling

In these sentences, there are spelling mistakes. On each numbered line, there is either one mistake or no mistake. Find the group of words with the mistake in it or choose (N).

20. He was able to get an excelent bargain by buying items in bulk.

A B C D N

21. The super-fast computers can communnicate directly with one another.

A B C D N

22. Food competition among the mammals intensified on the small island.

A B C D N

23. Whatever happend, they made a promise to remain friends forever.

A B C D N

24. She relaxed and pressed her bear legs into the golden sand in front of her.

A B C D N

25. Mr. Timothy really appreciated the generous gifts from his students.

A B C D N

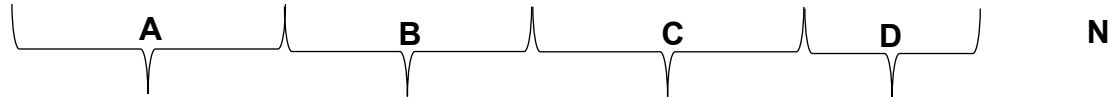

26. Her stomach contracted and then twisted into a tite knot.

A B C D N

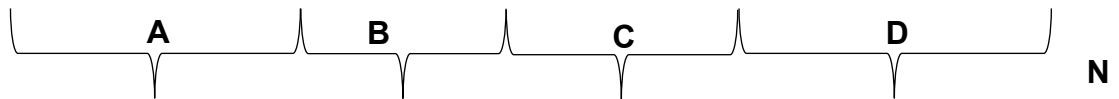

27. The majestic leopard waited patiently for the gazelle to move closer.

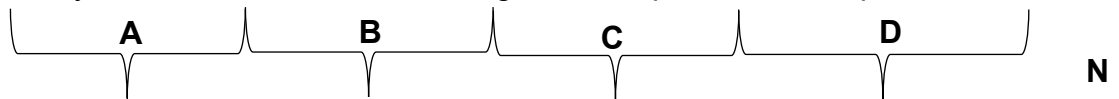

28. Some benign bone tumors shrink or dissappear without treatment.

29. He could not beleive his eyes! Just behind him was his favourite celebrity.

30. Every snowflake that lands on the ground is special and unique.

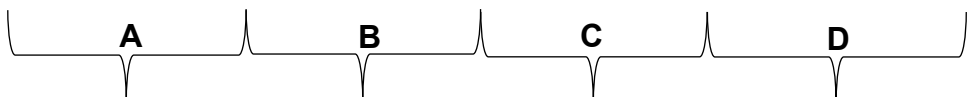

Punctuation

In these sentences, there are grammar or punctuation mistakes. On each numbered line, there is either one mistake or no mistake. Find the group of words with the mistake in it or choose (N).

31. Rosie, amy and Francesca have been best friends since primary school.

 **A** **B** **C** **D** **N**

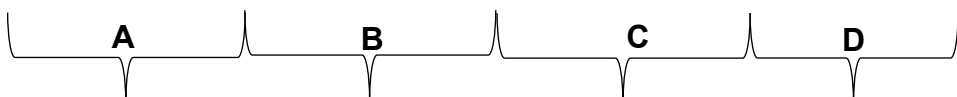

32. "So, you see..." whispered Greg. "That's how we found the money."

 **A** **B** **C** **D** **N**

33. My favourite book is definitely 'The chamber of secrets' by Joanne Rowling.

 **A** **B** **C** **D** **N**

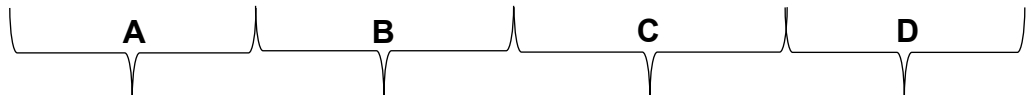

34. The dog wagged it's tail excitedly expecting the ball to be thrown.

 **A** **B** **C** **D** **N**

35. During the night Neil couldn't stop tossing and turning in the bed.

 **A** **B** **C** **D** **N**

36. Searching in the darkness, the boy desperately asked, "Is anyone there."

 **A** **B** **C** **D** **N**

37. We can go to the museum after lunch; Mondays are pretty quiet there.

 **A** **B** **C** **D** **N**

Sentence Completion

In this passage choose the best word or group of words to complete each numbered line so that it makes sense and is written in correct English.

38.

It was

Sunday A

Friday B

Week C

Saturday D

 morning, and Mum had just

managed to pack the kids off to school.

39.

But this Friday, Mum

having A

have B

is C

had D

 a busy

40.

planning A

schedule B

days C

months D

 ahead of her.

She didn't just look after the children, she also worked from home.

41. Her

works A

hobbies B

chef C

job D

 was cooking for special

occasions, like weddings and birthdays and parties.

42.

She made cakes and tarts,

dainty A

dirty B

delicates C

drab D

 sandwiches,

43. little nibbles, and all

kindly
A

type
B

sorts
C

yummy
D

of tasty

things on cocktail sticks.

44. Today she had to

deliver
A

cooks
B

transporting
C

eat
D

a feast of

45. snacks to an office party

on
A

in
B

by
C

exact
D

5 pm.

Richard III

Read this passage carefully and then answer the questions that follows:

Richard III was king of England for two turbulent years. He is best known for being accused of murdering his nephews to protect his throne.

Richard III was an English king. He reigned from 1483 until 1485, as the last king from the House of Plantagenet. He was born on 2 October 1452, at Fotheringhay Castle in Northamptonshire, the eleventh of the twelve children of Richard, 3rd Duke of York, and Cecily Neville, and the youngest to survive infancy. He was the younger brother of King Edward IV. Richard was part of the House of York during the Wars of the Roses.

When Edward IV died, his 12-year-old son became King Edward V. Richard was given the role of "Protector", meaning he would run the country until Edward V became an adult. But Richard III took the throne for himself. Soon after, Edward V and his younger brother disappeared while living in the Tower of London.

Many people started saying that Richard had ordered for the boys to be killed. Historians are not sure about this. Many of the House of York's supporters believed he had done it and turned against him. He managed to put down a rebellion by his old friend the Duke of Buckingham but faced another rebellion by Henry Tudor. This led to the Battle of Bosworth Field (1485), in which Richard was killed and his army was lost. His body was buried quickly in a church in Leicester.

In 2012, the body was rediscovered beneath a car park. In March 2015, after a funeral that included a solemn ceremony filled with royal pageantry, Richard III was ultimately laid to rest at Leicester Cathedral, not far from the archaeologist's site and where he met his grisly end.

There has been discussion for many years about whether Richard III was a good king or a bad king. During his reign, which lasted only two years, he was very popular in parts of the country, especially the north of England.

However, there were enough people who hated him to make sure that his enemies were able to raise a big army against him and defeat him in battle. The Tudor kings and queens portrayed him as villain, as did Shakespeare's famous play Richard III.

In both the past and the present, some writers say that Richard III made many good laws despite being ruthless. Others argue that his brutal behaviour was common for the powerful people of that time.

Please answer the questions. You may refer to the passage again if you need to. Choose the best answer and mark its letter.

46. Who was Richard's father?

- A.** Richard, 3rd Duke of York
- B.** Richard I
- C.** Henry VI
- D.** The Duke of Buckingham
- E.** King Edward IV

47. In which county was Richard born?

- A.** England
- B.** Buckinghamshire
- C.** Fotheringhay
- D.** Northamptonshire
- E.** Suffolk

48. Richard III is written in Roman numerals. We pronounce his name as:

- A.** Richard the fourth.
- B.** Richard the second.
- C.** Richard the seventh.
- D.** Richard the third.
- E.** Richard the first.

49. What word in paragraph two has a similar meaning to uprising?

- A.** Rebellion
- B.** Buried
- C.** Army
- D.** Against
- E.** Supporters

50. What is another word for 'infancy' (line 4)?

- A. illness
- B. prince
- C. royalty
- D. childhood
- E. wealth

51. When did Richard die?

- A. 1485
- B. 29 years
- C. 1483
- D. 32 years
- E. 1486

52. Shakespeare, Leicester, and Tudor are all examples of:

- A. Pronouns
- B. Prepositions
- C. Adverbs
- D. Conjunctions
- E. Proper Nouns

53. Why did some of the members of the House of York turn against him?

- A. They believed Henry Tudor was a better leader.
- B. He took away lands from the dukes.
- C. There was suspicion that he had killed the two princes.
- D. He had too much of an extravagant lifestyle.
- E. He converted Catholicism.

54. 'Especially', 'quickly' and 'ultimately' are what type of words?

- A. Adverbs
- B. Verbs
- C. Adjectives
- D. Common nouns
- E. Prepositions

55. What is archeology?

- A. The study of living things.
- B. The study of the world's oceans.
- C. A building that holds a collection of objects that are found in nature.
- D. The study of people and artifacts from ancient times.
- E. The study of medicine.

56. Who succeeded Richard to the throne?

- A. King Edward IV
- B. The Duke of Buckingham
- C. Edward V
- D. Elizabeth I
- E. Henry Tudor

57. What does the word 'solemn' mean? (line 21)

- A. Serious
- B. Amusing
- C. Joyous
- D. Delayed
- E. Official

58. Which statement is true about the reign of Richard III?

- A. It was long and successful.
- B. He was the last king of the Plantagenets.
- C. He was the first Tudor king.
- D. He managed to produce an heir.
- E. He was victorious at the battle of Bosworth.

59. Where was his body discovered in 2012?

- A. Leicester Cathedral
- B. Under a carpark
- C. A field in Bosworth
- D. In the Tower of London
- E. Northamptonshire

60. What did people think of Richard III?

- A.** They all adored him.
- B.** Everyone but Shakespeare respected him.
- C.** Public opinion was very mixed.
- D.** He was the most hated king of England.
- E.** All historians think he made good decisions.

REVISION PAPER

Maths

First name: _____

Last name: _____

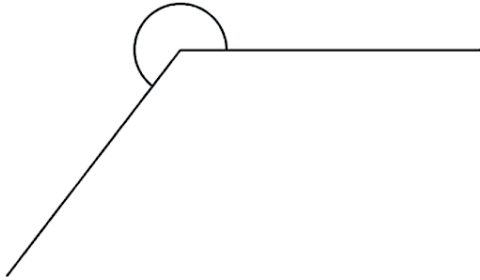

This paper contains 60 marks

- a.** This paper consists of a **50-minute test**.
- b.** Read the instructions carefully.
- c.** Do not begin the test or open the booklet until told to do so.
- d.** Work as quickly and as carefully as you can.

MATHEMATICS TEST

1. What word correctly describes the angle below?

- A. Acute
- B. Obtuse
- C. Right angled
- D. Reflex
- E. Straight line

2. What is the number twenty-five and a quarter written as a decimal?

- A. 25.4
- B. 22.5
- C. 22.25
- D. 25.35
- E. 25.25

3. Calculate the following sum:

$$147 \times 3$$

- A. 541 B. 431 C. 448 D. 541 E. 441

4. Round 6,659 to the nearest thousand.

- A. 6,660 B. 7,000 C. 6,000 D. 6,700 E. 6,900

5. Calculate the following sum:

$$975 \div 5$$

- A. 165 B. 158 C. 185 D. 195 E. 205

6. This pictogram shows how many laptops were sold by a company during one week.

Monday	
Tuesday	 
Wednesday	  
Thursday	   
Friday	  

Key:  represents 10 laptops

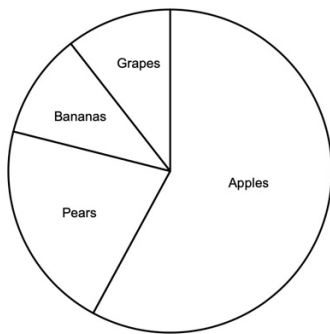

How many were sold on Wednesday?

- A. 3 B. 13 C. 30 D. 10 E. 20

7. How many sides would 3 heptagons and 2 triangles have in total?

- A. 24 B. 29 C. 23 D. 34 E. 27

8. A class of 30 children were asked to name their favourite fruit. The results are shown in the pie chart below.

What was the second most popular fruit?

- A. Pears
 - B. Grapes
 - C. Bananas
 - D. Apples
 - E. You cannot tell
9. Work out the missing number:
- $$7 \times \underline{\quad} = 749$$
- A. 170 B. 742 C. 107 D. 80 E. 117
10. What is nineteen and a fifth written as a decimal?
- A. 9.2
 - B. 19.5
 - C. 19.2
 - D. 19.05
 - E. 9.5
11. Work out 20% of 800.
- A. 160 B. 200 C. 340 D. 220 E. 190

12. There are 55 cows in a field. $\frac{2}{5}$ of the cows are brown and the rest are white and black.

How many cows are black and white?

- A. 33 B. 22 C. 11 D. 10 E. 35

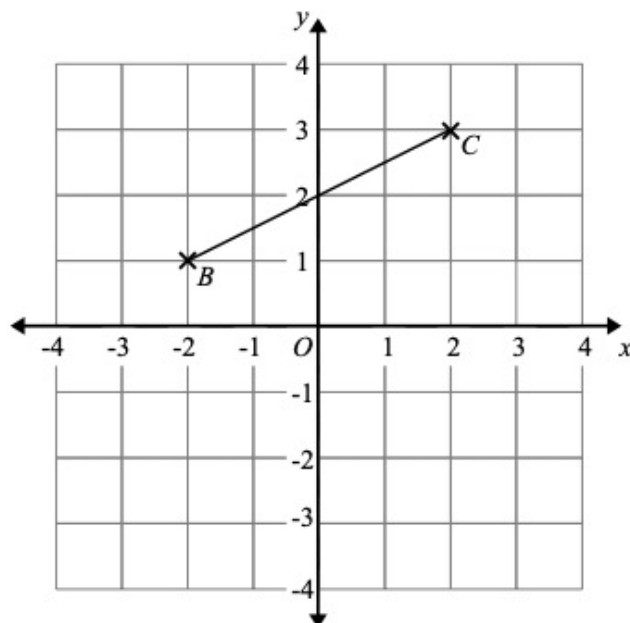

13. Which is the most appropriate metric unit for measuring the distance between 2 cities?

- A. meters B. kilometers C. millimeters D. centimeters E. yards

14. Which is the most appropriate metric unit for measuring the weight of a dog?

- A. inches B. kilograms C. milligrams D. tonnes E. litres

15. What are the coordinates for point B?

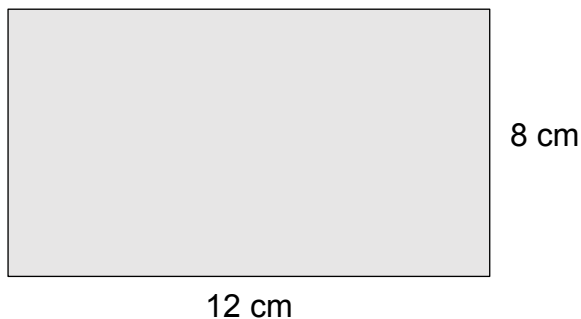

- A. (2, 3) B. (3, 2) C. (-2, 1) D. (3, 3) E. (1, -2)

- 16.** Jerry has a favourite number. He multiplies his number by 5 and then subtracts 6. His answer is 29.

What is Jerry's number?

- A.** 7 **B.** 12 **C.** 56 **D.** 112 **E.** 8

Look at the shape below.

- 17.** What is the perimeter of the rectangle?

- A.** 40 cm **B.** 96 cm **C.** 20 cm² **D.** 32 cm **E.** 74 cm

- 18.** What is the area of the rectangle?

- A.** 96 m **B.** 86 cm² **C.** 44 cm² **D.** 108 cm² **E.** 96 cm²

- 19.** How many 25 cm pieces of string could you make out of 2 metres?

- A.** 5 **B.** 8 **C.** 3 **D.** 2 **E.** 7

Five adults were asked about the numbers of siblings they had.
The answers are shown below.

1	7	2	2	3
---	---	---	---	---

20. What is the mode of the set of numbers?

- A. 1 B. 7 C. 8 D. 10 E. 2**

21. What is the range?

- A. 7 B. 5 C. 4 D. 6 E. 9**

22. What is the mean number of siblings?

- A. 15 B. 3 C. 7 D. 8 E. 2**

23. Liam is facing West. He turns 90 degrees clockwise.

What direction is he facing now?

- A. South B. North-West C. East D. North E. South-East**

24. Kitty has two dogs, Pixie and Bertie.

Pixie weighs 8.5 kilograms

Bertie is 700 grams lighter than Pixie.

Work out how much Bertie weighs.

- A. 7.5 kg B. 8.2 kg C. 9 .2kg D. 7.8kg E. 780g**

25. Below is a recipe for pancakes.

<i><u>Recipe for 10</u></i>
<i><u>pancakes</u></i>
<i>100 g flour</i>
<i>2 eggs</i>
<i>300 ml milk</i>
<i>1 lemon</i>

How many milliliters of milk would you need for 15 pancakes?

- A. 600 ml B. 300 ml C. 400 ml D. 350 ml E. 450 ml**

26. How many factors does the number 32 have?

- A. 12 B. 10 C. 9 D. 8 E. 6**

27. Find the Highest Common Factor (HCF) of 24 and 56

- A. 2 B. 4 C. 8 D. 12 E. 24**

28. Which number below is a multiple of 18?

- A. 9 B. 5 C. 38 D. 36 E. 17**

29. Which number is a square number?

- A. 144 B. 124 C. 187 D. 399 E. 199**

30. Freddie and Hannah share sweets in the ratio 3: 4.

If Freddie has 24 sweets. How many does Hannah have?

- A. 32 B. 12 C. 40 D. 18 E. 38**

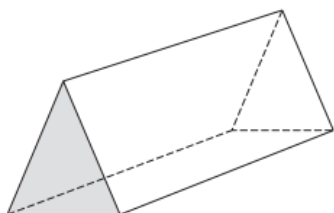

31. Poppy buys a TV in the sale. The original price was £560.00 but she received 25% off.

How much did Poppy pay for the TV?

- A. £440 B. £450 C. £120 D. £420 E. £535**

32. Look at the three-dimensional shape below.

What is the name of this shape?

- A. Pentagonal prism
- B. Triangular based pyramid
- C. Square based pyramid
- D. Triangular prism
- E. Cuboid

33. How many faces does the shape above have?

- A. 6 B. 5 C. 9 D. 12 E. 4

34. Work out 446×2

- A. 892 B. 889 C. 882 D. 782 E. 894

35. Here is an answer to a calculation: $86 \times 54 = 4,644$

Work out 8.6×54

- A. 464.4 B. 46.4 C. 446.4 D. 46,440 E. 0.4644

36. There were 42 passengers on a bus. 19 got off at the next stop and 8 passengers got on.

How many passengers are on the bus?

- A. 31 B. 33 C. 34 D. 35 E. 37

37. James runs 400m every day apart from Sundays.

Work out how far James runs in one week.

- A.** 280m **B.** 2.8 km **C.** 2.4km **D.** 240 m **E.** 2.2 km

38. Sanjid has a number pattern.

16, 8, 4, 2, 1

What is next in the number sequence?

- A.** 1.2 **B.** 0 **C.** 0.5 **D.** 3 **E.** 0.2

39. Amber has a different number pattern.

1, 3, 6, 10, 15

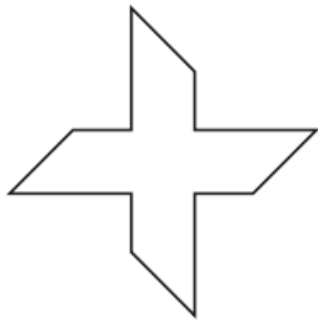

What is next number in Amber's sequence?

- A.** 17 **B.** 19 **C.** 18 **D.** 20 **E.** 21

40. Approximately, how many centimetres are equal to one inch?

- A.** 6 **B.** 5.5 **C.** 2.5 **D.** 0.5 **E.** 5

41. What is the order of rotation symmetry of the shape below?

- A. 1 B. 3 C. 4 D. 2 E. 8**

42. Samantha has an equilateral triangle.

How many degrees is each interior angle?

- A. 60° B. 30° C. 40° D. 90° E. 50°**

43. Below is a rule to find the time, in minutes, needed to roast chicken.

Use the rule to work out the time needed to roast a chicken which weighs 4 pounds.

- A. 130 minutes
B. 150 minutes
C. 120 minutes
D. 140 minutes
E. 180 minutes**

44. How many quarters are there in 5?

- A.** 4 **B.** 20 **C.** 5 **D.** 1 **E.** 0

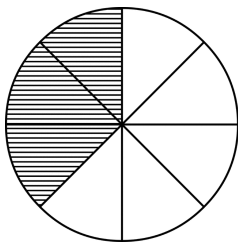

45. What is 0.23 as a fraction?

- A.** $\frac{23}{10}$ **B.** $\frac{23}{100}$ **C.** $\frac{23}{1000}$ **D.** $\frac{10}{23}$ **E.** 23%

46. Which of these numbers is the largest?

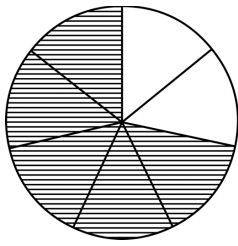

- A.** 201
B. 210
C. 211
D. 200
E. 20.6

47. What fraction has been shaded?

- A.** $\frac{4}{8}$ **B.** $\frac{3}{8}$ **C.** $\frac{2}{3}$ **D.** $\frac{8}{3}$ **E.** $\frac{3}{9}$

48. What fraction has not been shaded?

A. $\frac{5}{10}$

B. $\frac{2}{7}$

C. $\frac{5}{7}$

D. $\frac{5}{8}$

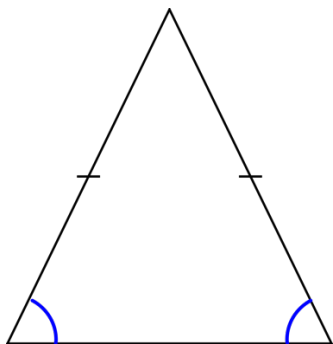

E. $\frac{1}{4}$

49. Look at the statements below.

Which of the five statements below are false?

- A. $\frac{1}{5}$ of a complete turn is an acute angle
- B. $\frac{2}{5}$ of a complete turn is an obtuse angle
- C. $\frac{3}{5}$ of a complete turn is more than 3 right angles
- D. a quarter turn is 90 degrees
- E. a full turn is 360 degrees

50. What is the name of this shape?

- A. Equilateral triangle
- B. Triangular prism
- C. Scalene triangle
- D. Right angled triangle
- E. Isosceles triangle

- 51.** Sandra has 39 bottles. 3 of the bottles are standing on their own. She has 9 cartons full of bottles.

How many bottles are there in each carton?

- A. 6 B. 13 C. 4 D. 5 E. 12**

- 52.** The tank is $\frac{3}{4}$ full. It can hold 800 litres.

How much is in it right now?

- A. 600 L B. 100 L C. 60 L D. 700 L E. 500 ml**

- 53.** Choose the correct definition of a prime number.

- A.** A number with an odd number of factors.
- B.** A number that can only be multiplied by itself and 1.
- C.** A number with exactly 2 factors.
